Re: High Ability Testing

January 6, 2021

Dear Families,

In late November, all Kindergarten and 2nd-Grade students were given the Cognitive Abilities Test (CogAT) Screener. This is one part of the identification process for the High Ability program in Lawrence Township. Attached to this letter are the results from your child's screener assessment. Students who scored a **73 or higher Age Percentile Rank** will be given the full CogAT test in late-January/early-February. The example below illustrates where to find the Age Percentile Rank score for your child. If your child does not have a score listed, it means your child did not answer enough questions on the screener for it to be scored.

Example:

Abilities	Age Scores		APR Graph				
	Age Stanine	Age Percentile Rank	1	25	50	75	99
Picture Analogies							
Number Analogies							
Figure Matrices							
Total Score	4	29					

Abilities	Raw Scores			Grade Scores		Local Scores	
	Number of Items	Number Att.	Number Correct	Grade Stanine	Grade Percentile Rank		
Picture Analogies	18	18	15				
Number Analogies	18	18	8				
Figure Matrices	18	18	11				
Total Score	54	54	34	5	48		

For more information about the identification process for high ability, please visit <http://www.ltschools.org/academics/high-ability-program>

Thank you,

Tierney Anderson, Ed.S.
